KELOWNA SCENE CROSSING BRIDGE

New visitors to Kelowna, crossing the bridge, will see something like this as they enter City Park. But their view will not be quite as all embracing,

because photographer snapped it from high above steel span. Storage sheds of Dominion Bridge Co. are seen on roadway that winds through

park and becomes Harvey Avenue at Abbott St. Bridge is due to be finished by July 15 and to be opened by Princess Margaret.

## STARR FORECASTS:

# Unemployment To End In June

By THE CANADIAN PRESS  
An optimistic view on unemployment and a critical stand on fishing jurisdiction over coastal waters have been mingled in the shrinking campaign for the March 31 federal election.

Labor Minister Michael Starr said in Montreal Wednesday night the present unemployment situation has ended sooner than the Progressive Conservative government expected.

## New York Fire, Explosion Kills 24 - 18 Women

NEW YORK (AP)—Fire triggered by an explosion shot smoke and flames into a fourth-floor underwear factory in a Lower Broadway building Wednesday, killing 24 persons—18 of them women.

The high death toll was attributed to panic among some of the 36 workers.

A man and woman lived through the two-hour blaze, while most of the victims died before the flames reached them.

Several women were leaping from windows by the time the first firemen reached the scene. Six women leaped to the street. Two other persons were caught in fire nets; five were rescued via aerial ladders.

## Now The Gobs Will Try "Flying Saucer" Flights

SOUTH WEYMOUTH, Mass. (AP)—The U.S. Navy put what it calls a "flying saucer" through its paces Wednesday.

The radar test plane, mounting a 37-foot rotating disk, promises to extend the range of the protective fence against air attack by up to 70 per cent.

The radar platform is a \$2,000,000 Lockheed Super Constellation with the saucer mounted on a turret above the fuselage. Two big radar sets and other electronic test gear add up to more than the cost of the aircraft.

Maj.-Gen. H. T. Alness, deputy chief of the North American Air

Defence Command, told reporters the radar plan is primarily designed to detect manned aircraft, not intercontinental missiles.

Its twin eyes can scan the sky for flying objects from sea level to 20 miles altitude. The plane's mission is to increase the protective range of the Atlantic and Pacific ends of the North American radar fence against a possible "flank" attack.

Radar planes and ships in both oceans supplement the radar fence of the Distant Early Warning line in northern Canada. The plane is to be put through a six-months test period.

## SPOT NEWS IN BRIEF

VANCOUVER (CP)—Finance Minister Fleming said Wednesday night Liberal suggestions that the United States has restricted trade with Canada in retaliation against Canadian trade policies are "a slander on the U.S."

LONDON (AP)—West Germany has served notice that it intends to seek Allied permission for production of anti-tank missiles now banned to her, Allied diplomats reported today.

TUNIS (AP)—President Habib Bourguiba today reaffirmed his desire to keep this North African country on the side of the West, but launched a blistering new demand that France pull her troops out of his "occupied" country.

SINGAPORE (Reuters)—Renewed fighting between Indonesian government and rebel forces was reported today in the secession battle for the North Sumatran capital of Medan, current focal point of the uprising.

## AUTOMATIC SHIP PLANNED IN U.K.

LONDON (AP)—A British firm announced today that it is designing a giant, atomic-powered submarine oil tanker capable of crossing the Atlantic without a single crew member. The vessel, faster and more powerful than any ocean-going vessel now afloat, could be steered and navigated across the Atlantic by automation.

## Victoria OK's Delinquency Investigation

VICTORIA (CP)—Two last-minute bills presented to the legislature after midnight today cleared the way for inquiries into juvenile delinquency and medical care for welfare patients.

Legislative committees during the session—which prorogues today—held investigations into both subjects.

A board of not more than sixteen persons, one of whom will be chairman, will be appointed by cabinet to inquire into juvenile delinquency, and a board of not more than nine into medical care.

The B.C. branch of the Canadian Medical Association prompted the continued investigation into welfare care when it told the committee recently it would cancel its contract with the government 30 days after March 31 unless a satisfactory agreement was reached.

Reports from both committees are due to be presented to the cabinet before the next session of the legislature.

A labor committee investigating the Britannia mine closure urged the government to continue efforts to reopen the copper mine which closed on Feb. 28 and threw 800 men out of work.

## Heart Attack Killed Pieper Jury Declares

A coroner's jury Wednesday afternoon ruled that Charles Albert Pieper, late of Okanagan Mission, came to his death through natural causes.

The crashing of Pieper's car into the north wall of the Kelowna Curling club, Sunday afternoon, March 9, had nothing to do with his death, the jurymen decided. Cause of death was given as a "coronary occlusion."

Pieper complained of feeling ill while curling and went outside. Apparently after starting his car, which was facing the curling club's north wall, he was stricken with a heart attack and the car slammed into the building, knocking out several pumice blocks and causing some damage to the front of the car.

The inquest was presided over by Deputy Coroner D. J. A. Urquhart.

Jury members were: Thomas "Scotty" Angus, foreman; Blair Peters; Jack Bichel; J. E. Hematree; Stanley Hodgkinson and Archie Loudon.

## WILLOUGHBY CUP OURS

### Packers Write History

The 'Orchard City' got behind their victorious Packers last night.

In the Memorial Arena, nearly 3,000 people rose to their feet and gave out with a thunderous ovation as BCAHA vice-president, Dr. Mel Butler of Kelowna presented the Willoughby Cup to team captain Jim Middleton.

Following the presentation, pandemonium reigned for the faithful fans who have never seen such a sight since the bottom-place Packers beat the same Kamloops club in 1952 for the OSHL crown.

### CITY FATHERS PRESENT

Later in the evening, Mayor R. F. "Dick" Parkinson, a long time hockey fan himself, presented the players with beautiful silver spoons, engraved with the city's coat-of-arms, on behalf of council.

"Give them to your faithful wives," he urged following his short congratulatory speech. The dressing-room was like Grand Central Station, following the great shut-out victory, and photographers vied with well-wishers in their endeavor to capture the moment of triumph that has been slow in coming to the Orchard City's senior "A" hockey club.

Coach Jack O'Reilly was a red-faced leprechaun, celebrating St. Patrick's Day just two days late, but full of fire and fun. The Warwick brothers extended their congratulations to the club that now has their sights set on the Savage Cup, and are thinking along the lines of going all the way to the Allan Cup.

For the 15 players and their wives, it was an accomplishment for which some of them had been waiting many years, and many of the 3,000 fans in the arena had been waiting with them.

### TRUE CHAMPIONS

True champions, the Packers have come through the league with full honors, winning the league title and the Becker Trophy, then moving through their semi-final with Pentleton, and knocking off Kamloops in decisive fashion.

The only time in the club's history that they have won the league championship before was in 1952, when the club started the league by their upset performance in the finals, after finishing the league in bottom spot.

For hockey fans in Kelowna, the win has the added impact of starting a series against the winner of the Rossland-Spokane series for the Savage Cup, slated to be opened here Monday night.

And should the Packers go further along the Allan Cup trail this year, they will have the majority of their games in the home arena.

Arena manager Percy Downton grinned when he was asked if he was worried about having to keep the ice in the arena for another two months. "Don't worry, we have ice in the arena all summer."

SCARRED OLD MUG — the Willoughby Cup—emblematic of Okanagan Senior Hockey League supremacy came to roost in Kelowna Wednesday

night, as Packers shattered their chief and long-time arch-rivals, Kamloops Chiefs with a whitewash 3-0 in the final game of the cup series. Pictured above, BCAHA vice-president Dr. Mel Butler of Kelowna presents cup to weary but happy

Packer captain Jim Middleton after the game.

## JUBILATION DESPITE SHINERS

# Whoopie In Packer Camp

"Harry's fine, mom, and he hasn't got a scratch tonight," coach Jack O'Reilly yelled into the 'phone over the din of voices.

Last night, assuring an anxious mother in Trail that her favorite son had come through the hockey wars unscathed.

Harry "Hurricane" Smith was sporting two receding black eyes, but he couldn't have looked happier, as he and his team-mates celebrate the Packers' victory in the OSHL and the Willoughby Cup.

Neither could any of his 14 team-mates, who had just downed the Kamloops Chiefs 3-0, giving goalie Dave Gatherum the first shut-out of the season.

"I just told those guys to get out there and bar the door," Gatherum chortled. "And darned if they didn't."

Big Jim Middleton, "Moose" to his team-mates, swung the cup victoriously over his head. "Here you are, you little monster," he grinned, "after nine years of trying." The veteran of the club, Middleton served as a replacement on the Pentleton V's when they won the world championship.

Veterans and rookies alike, they whooped it up in the dressing room, as their opposition filed in to wish them well.

Grant, Bill and Dick Warwick headed the procession of the Chiefs, and the losers wished the winners an easy road to the Allan Cup.

The heroes of the series were hard to pick out, since every man had given it the "college try," but Gatherum was conceded to be one of the club's stalwarts.

Centerman Ray "Scorch" Powell, playing his second game of the series and coming up with one of the goals, said, "Dave was right there with that key save on Bill Hryciuk, and that was the high point of the game."

Mike "Curly" Durban, an eight-year veteran with the club, grinned when he was asked how he felt about scoring the opening goal. "That was only the beginning," he said, "I'm just getting warmed up for this year."

## Big Apple Shipment Exported

By W. BEAVER-JONES

B.C. Tree Fruits has chalked up a new record in apple shipments for this time of the year.

Total of 188,000 boxes of apples were loaded at Okanagan points last week. Most of the load was consigned to points in continental Europe. It will probably be the last large shipment for off-shore export, as remaining stocks of apples will be needed to service traditional domestic markets for the balance of the season.

This now brings B.C.'s total shipments for the year to 4,619,435 boxes, or about 90 per cent of the apple crop, expressed in terms of fruit destined for the fresh market.

Slightly less than 600,000 boxes are still unsold, but this quantity is not considered in excess of normal domestic requirements. Last year's crop totalled 5,200,000 boxes.

Volume of sales in Western Canada had greatly exceeded that of the past three seasons at this time, but most marked increase was in off-shore markets, the agency said. The increase was due mainly to heavy shipments to Holland, Germany, Sweden, Norway, Finland and Iceland.

Tree Fruits also reported that prices are beginning to show a more encouraging trend and fruit officials are hopeful they may improve before the season is over. This is considered a better-than-fair possibility for the following reasons:

1. Most of B.C.'s remaining apple stock consists of Newtowns and long-keeping Winesaps. Both quality and condition are excellent, compared with Washington State where advance maturity has been held responsible for existing low prices to most of the current selling season.

2. During this period, B.C. growers have been able in many cases to command premiums for their fruit, due to the industry's production standards and more adequate storage facilities.

3. Shortages are now appearing in citrus fruits. A series of killing frosts in Florida are reported to have caused over a half billion dollars in damages, seriously depleting normal supplies, particularly of oranges.

4. Due to the shortage, orange prices are increasing sharply and, in turn, creating a better demand for apples.

## CCF Claims Teacher Curb "Scab" Law

VICTORIA (CP)—Liaison Gov. Frank Ross prorogued the second session of the 25th British Columbia legislature at 12:10 p.m., PST today. Royal assent was given to 73 bills passed during the eight-week session.

VICTORIA (CP)—The legislature sat for more than nine hours Wednesday in clearing the way for prorogation at noon today.

The only business remaining after the sitting—longest and last of the second session of the 25th legislature—was the second reading of eight bills in the hands of private members.

All of the bills were sponsored by members of the CCF position and it was probable they would all be defeated.

The legislature sat until after 2 a.m. today in cleaning up the major business.

Seventeen bills were passed during the night sitting of the House, and four private members' bills—all sponsored by

## Government Took Proper Stand On "Blacklisting"

The B.C. government's threat of ending the "closed shop" for B.C. Teachers' Federation unless it stops "blacklisting" school boards on salary schedules, seems to have had its effect—for the time being at least.

Education minister Leslie Peterson is to be commended on his stand. Mr. Peterson said the new legislation, now before the House, makes negotiations between boards and teachers on salary matters a "must" and where they cannot agree the disputes must go to arbitration. As education minister, he said he felt that his main duty is to the children of the province and to make sure that their education is continued.

And that is the way it should be. The all-powerful B.C. Teachers' Federation thought by "blacklisting" school districts, they would win their point on salary demands "hands down."

A total of 28 school boards out of 81 in B.C. have fixed salaries this year under authority of section 47 of the public schools act. These are the districts, including Kelowna, which have been "blacklisted."

No doubt there are many teachers unhappy over the federation's "blacklisting" stand, but they are members of a closed shop, and they can't do anything but follow the dictates of their central office. These teachers don't even know, in many cases, that school boards were obliged to fix salaries in order to meet the February 1 deadline set under the public schools act.

Nor do they know that school boards involved took this action in plenty of time so that teachers would still be able to go to arbitration. "Fixed salaries" could have been

upset at any time by arbitration, but the teachers' leaders had decided that they didn't want the verdict of an impartial board—that it didn't produce the results they wanted, regardless of economic conditions or anything else—and so they spurned the machinery for salary settlement set down by the legislature and used by them for years.

It's about time that a definite stand is taken on the salary disputes which crop up annually between school trustees and the teachers. We dare say they have won more wage concessions in the past few years than any other organized labor body . . . far more than the ordinary white-collar employee.

Actually, teaching is an attractive career. In fact no other profession offers anything to compare with it. Not only have they job security, but if they take the various courses offered to improve certification, they can also count on additional salary recognition for services rendered. Many school boards co-operate actively with teachers seeking better qualifications and while the method may vary from district to district, the end result is the same—greater opportunity to advance, and better returns in the form of earning ability.

Holidays and vacation time are very attractive too—summer months, Christmas and Easter—and whether used for additional professional study or private recreation, no other profession has these advantages.

We do not think the rank and file of this noble profession is in favor of "blacklisting" tactics. But isn't it about time a little consideration is given to Joe Taxpayer who foots the bill?

THE MUMMY FACTORY

JAMES K. NESBITT

## THE VICTORIA MERRY-GO-ROUND

VICTORIA — Just about the time you are reading this, the 1958 session of your legislature should be over—if all goes well.

At this week's beginning, there was still a tremendous amount of work for your MLAs—but it's surprising how everything folds quickly, once the wagon really starts to roll, and the MLAs hear the siren calls of their home towns.

For the first time since Mr. Bennett's Social Credit government took charge of provincial affairs in 1952, the session has gone eight weeks. It opened Jan. 23.

It's interesting watching how backbench MLAs mature after only a short time in legislative life, which often brings out the best in a man, gives him an opportunity to express his personality, makes one realize that most human beings have far more in them than they themselves recognize.

Take SC Mr. Murray of Prince Rupert, for instance: he was elected in September of 1956, so the 1957 session was his first, and he didn't say much, but he kept his eyes and ears open. This session he was chairman of a special committee enquiring into the question of whether or not dental technicians should be permitted to deal directly with the public, instead of having to go through a dentist. And an excellent chairman Mr. Murray turned out to be—quick, fair, standing no nonsense or red herrings from anyone. SC Mr. Bruch of Esquimalt is another backbencher who has come a long way. He used to be a stumbling, hesitant speaker, appearing somewhat frightened, even of himself. Now he gets up and says his piece, clearly, briefly, unafraid, with a conviction that he's right.

The energy of Premier Bennett continues to astonish this column. He's 57, which isn't by any means old, of course, but he has more energy than a lot of men 10 years younger. He took a day off from the grind of the session to fly into the Peace River country to inspect the first PGE train into Chetwynd, the branch point between Fort St. John and Dawson Creek. The Peace River members Mr. Roche and Mr. Carnell, went with him. Next day the premier was back in the House, fresh as ever, exhilarated by another look at the great Peace country, which, to him, is one of the most wonderfully stimulating areas in the whole province.

It must be Mr. Bennett's vibrant enthusiasm that keeps him so fresh, and, apparently, inexhaustible. He never knows a moment of boredom. Whatever he's doing, at that moment, is, to him, the most important job that he could be doing. He doesn't

said, he decided CCF stands for Canadian Cackling Fraternity. "We lay the eggs and they do the cackling," said Mr. Gagliardi. "You lay the eggs, all right," said several CCFers at once, to which Mr. G. replied: "And we hatch 'em too."

Well, the session's over for another year; your MLAs talked to their heart's content, roasted the political daylight out of each other, voted millions and millions of YOUR dollars for YOUR service, and made many new laws, the most important being a new Public Schools Act and a new Forestry Act.

**RARE VISITOR**  
CORNWALL, Ont. (CP) — A full-grown red fox was seen walking quietly along the street here. Mrs. George Jackson said the fox did not start trotting until her husband shouted, then slowed down to a walk again.

**EARLY ARRIVALS**  
PEMBROKE, Ont. (CP)—William Holtz reported seeing a flock of geese heading north almost a month before their usual schedule. They had apparently skipped their usual stopover at Muskrat Lake near here.

## BIBLE THOUGHT

We took sweet counsel together, and walked unto the house of God in company. Ps. 55:14.

If we are in harmony with God we will be in harmony with his children.

## BYGONE DAYS

**10 YEARS AGO**  
March, 1948  
Several members of the city council last Monday expressed approval over the government's action in instituting daylight saving time on a province-wide basis commencing April 25.

Police intend cracking down on truck owners who do not display their names and address on the side of the truck. During the war years, it was compulsory to show their name and address on the registered owner of freight vehicles. Similar regulations have been part of B.C. motor laws since December, 1945.

**20 YEARS AGO**  
March, 1938  
A resolution passed by the city council two weeks ago has had repercussions. Four letters on the subject were read at Monday night's meeting. The resolution had protested against the persistent rise in the cost of education and the inability of the city to control the costs and urged that the province take immediate action to change the method of raising money to defray the cost of education. One letter from the minister of education called the resolution an "indictment on those authorities who neglected to live up to the obligations of the curriculum instituted in 1927."

**30 YEARS AGO**  
March, 1928  
Out of five entries, Kelowna has won three basketball titles and is in the finals in another, which all keeps pace with the record of last year of entering five teams and winning five titles.

**40 YEARS AGO**  
March, 1918  
From the Boy Scout column: The offices of troop leader and secretary-treasurer have been divided. P.L. Richard Parkinson has been appointed troop leader and Patrol Leader Henry Crowley will continue to act as secretary-treasurer with P.L. Chas. Gaddes as his assistant. Scout John Groves has been appointed assistant librarian.

**50 YEARS AGO**  
March, 1908  
The Kelowna Association football team touring the coast met defeat at games played at Victoria and Nanaimo by 2-0 and 3-1 respectively, but the play was far from one-sided and the local boys won high praises for their work on the field.

Contract documents available from John Woodworth, Registered Architect, 513 Lawrence Avenue, Kelowna, B.C., after 3:00 p.m. Wednesday, March 19, 1958, on deposit of \$10.00. Tenders close at 4:30 p.m. Thursday, March 27, 1958 at the Office of The Secretary of The School Board, 599 Harvey Avenue, Kelowna, B.C. Certified cheque or Security Bond must accompany all Tenders. Lowest or any Tender not necessarily accepted.

F. MACKLIN,  
Secretary Treasurer,  
School District No. 23,  
Kelowna, B.C.

## Survey Notes Canada Must Broaden Training Plans

OTTAWA (CP) — Canada must expand her training facilities for professional and skilled workers if she is to meet the needs foreseen for her 1965 economy, says an economic survey recently released.

The report says that since the Second World War only a combination of "makeshift" methods and immigration enabled the graduates of the country's insufficient training establishments to go any distance towards meeting the demand for qualified personnel. The demand was not fully met, however, and the overall economy suffered.

Titled "Skilled and Professional Manpower in Canada, 1945-65," and written by the department's economics and research branch, the survey is one of a series prepared for the Gordon royal commission on Canada's economic prospects. The commission, headed by Toronto accountant Walter Gordon, presented a preliminary report a year ago and is expected to make public its final document next month.

## SEE NO LET-UP

Requirements for skilled and professional workers likely will outrun supply for the next 10 years, the survey says, and there is no evidence that the demand will slacken. Automation would merely vary the demand, producing new needs and reducing others.

Canada's great post-war expansion "created a severe pressure on specialized manpower supplies."

"Makeshift" methods were used to meet the demand domestically. "These included the overcrowding of training facilities, unusually large use of upgrading and on-the-job experience as a means of acquiring skills, the acceleration of training for skilled and technical workers, the use of underqualified instructors, and in some years very heavy reliance on immigration."

**SCHOOLS NEGLECTED**  
"The long-run insufficiency of Canadian vocational training and higher educational facilities was obscured by the easily available supply of immigrants possessing skilled and professional qualifications."

Such immigration "has tended to reduce the urgency of giving consideration to the longer-run adequacy of our educational and training institutions."

Expansion of Canada's training

facilities would have to be done "in an orderly fashion."

"Fast-changing technical developments affecting skilled and technical occupations," the survey said, "create a need for people with a thorough grounding in basic mathematics and science, which in turn means longer periods of formal training."

## LETTERS TO THE EDITOR

### WORLD PEACE

Editor,  
Kelowna Courier  
Dear Sir:  
I have tried very hard during the past weeks of pre-election speeches to be fair-minded when listening to the candidates of opposing parties making their appeals on the radio or television. Since I know how I am going to vote, my interest in the statements of other candidates is purely academic and usually accidental (either the television or radio is turned on.)

It is thus that I have heard on several occasions the earnest and obviously sincere young candidate for the Liberal party in this riding stress the point that his chief, Mr. Pearson, is the obvious choice to head the next government because of his experience in settling international problems.

Now it is the privilege of the candidate to emphasize the qualities and strong points of his party's platform and thereby ensure as many votes over his opponents as he can muster. That is the normal function of election campaigns in a democratic system. But the statements should be tempered by reason with due regard to the intelligence of the voting public.

I am referring to a statement made Sunday over the radio by Mr. Gilmour which prompted me to write this letter. I believe it was a dialogue between himself and Mr. Pearson, at the end of which the local candidate made a brief speech. He ended by stressing again the attributes of his chief in the field of foreign affairs and then made the startling statement that since Mr. Eisenhower there was no longer in good health there was no one better qualified to lead the western world than Mr. Pearson. The exact words escape me but this was the sense of his message.

Surely even the most fervent supporters of Mr. Pearson can hardly visualize him in the capacity of special adviser to the President of the U.S.A. while at the same time seeking the Premiership of this country. Let us regain a sense of proportion. Notable as Canada's contribution has been in the field of international affairs, her influence is in direct proportion to her position in the world as an important middle power, no more, no less. To imply that by electing a Liberal government we shall through the leadership of Mr. Pearson ensure peace in the world is an insult to the intelligence of the electorate.

While due allowances should be made for the enthusiasm and exuberance of some candidates, we are living in dangerous times and this, after all, is an adult world.

Your truly,  
N. VAN DER VLIET  
TIGHT MONEY  
Editor,  
Kelowna Courier

Referring to the governor of the Bank of Canada's statement that there has been no light money policy. Mr. James Coyne should refer to the statistical re-

### view of the Dominion Bureau of Statistics.

In this review it states that new money put into circulation in 1955 was 796 million; in 1956, 471 million, and in 1957, \$76 million. In these same years the national product from the same authority was in (1955) gross product, \$26,816,000,000; in 1956, 29,866 million of dollars and in 1957, over 30 billions.

Now with more goods each year for sale and less money each year for the purchase of these goods, is it not quite evident that we had a tight money policy?

Further, Mr. Coyne is quoted as saying that, depressions following a period of expansion is no accident. In other words, it is planned.

Then, our present minister of finance, Mr. Fleming, after a visit with Mr. Coyne comes up with this, "There is no difference of opinion." Mr. Coyne evidently convinced him who was and is boss.

Yours for financial reform,  
OTTO E. LEBOE  
President  
S. O. Social Credit Const. Assn.

### APPRECIATES ASSISTANCE

The Editor,  
Kelowna Courier.  
Dear Sir:

On behalf of the blood donor committee of the Red Cross, I would like to extend our sincere appreciation for your contribution to the very successful clinic which has just been concluded.

Your contribution undoubtedly was responsible in no small measure to the outstanding result of our endeavor. Please know how much we all realized the part your paper played and it is only by a concerted effort on the part of all community-minded people that we were able to put Kelowna's blood donor contribution in the record classification.

Thank you again for your wonderful co-operation.

Yours sincerely,  
Gwen G. Stirling,  
Chairman.

# Rural Ratepayers Body Discuss City Extension

Formation of an improvement area under the Water Rights Act rather than amalgamation of unorganized areas with the city of Kelowna, was favored at a meeting of the Kelowna Rural Ratepayers association this week.

## Byrne Declares Gilmour Would Serve Well

GRAND FORKS — Speaking at Grand Forks Tuesday night, James Byrne, Liberal member of parliament for Kootenay East, said there was not a finer candidate in B.C. nor one more determined to serve his riding than Bill Gilmour, Liberal candidate for Okanagan Boundary.

Speaking to an audience interested in mining, he said the greatest problems facing mining in B.C. were the federal Conservative government and the provincial Social Credit government. He criticized the present federal government for their diversion of 15 per cent trade with the U.S. and said it had resulted in the U.S. putting a serious tariff on lead and zinc, increased tariffs on beef and tariffs on oil, all seriously affecting the prosperity of Canada.

"There is no doubt about it," he said, "business is uneasy when the Conservatives are in power."

The meeting, held in Mission Road United Church Tuesday, was attended by more than 100 persons.

Establishment of an improvement area the ratepayers felt, would prove less costly.

An outline of contemplated extension of Kelowna city limits, and legal interpretation of the municipal act as it effects unorganized areas, was given by guest speaker Arthur Dawe.

ANNUAL REPORT

In his annual report, president Arthur Marty reviewed some of the numerous undertakings of the committee during the past year, for the improvement of different areas in the association.

He drew attention to the fact there were 146 paid up members, emphasizing that a strong association would mean a fair deal for rural districts in the forthcoming proposed extension of the city of Kelowna.

The meeting voted unanimously to include within the Association areas if they wished to join as far away from the city as Walnut Grove, which would be encompassed by proposed boundary extension.

STRESS VOTING

Alister Cameron, school representative for the area, gave a short report on the recent projected school board building programs. He stressed the importance of voting when the school referendum is put to ratepayers in April.

The association's financial report showed a healthy balance in the bank for future developments.

Most of last year's committee members were returned to office, as well as four new members, G. Stroh, W. R. Dickson, R. Behner and J. Fry. Mr. Marty was re-elected president.

Mosquito control will be carried out for another year, ratepayers decided.

## TB SEALS

## Kelownians Help Make Christmas Drive Best Yet

Kelowna was among 15 B.C. areas to do their biggest job on record in rallying increased support for the fight against tuberculosis.

Final figures on the 1957-58 Christmas seal sale and mail canvass released last week showed a total of \$241,000 was given to help B.C. Tuberculosis Society stamp out TB through free chest X-rays, research and public education.

Kelownians donated \$3,062.67. Total B.C. contribution is up nearly \$6,000 over last year, despite downward trends in business and unemployment.

"The result is very encouraging," commented executive secretary Fred Arnott. "It shows increased public awareness of the need for an all-out effort to search out and reduce tuberculosis from its position as our number one communicable disease problem."

SHOW INCREASES

All Vancouver area districts showed increases over last year. Vancouver City was up nearly \$4,000 and New Westminster was up \$900.

Other areas where donations exceeded those made last year include Vernon, Victoria, Kimberly, North Vancouver, Courtenay-Campbell River, Duncan-Golden, Smithers-Terrace and Vanderhoof.

NEW GOV'T BUILDING FOR TRAIL?

VICTORIA (CP) — Works Minister W. N. Chant said this week he will visit Trail sometime this year with a view to picking a site for a new provincial building there.

Robert Sommers (SC — Rossland-Trail) told Mr. Chant provincial facilities in his area are inadequate and said there are several possible sites for a new building.

## LOCAL and DISTRICT

# Hours For Service Stations, Garages Not Clarified Here

Just how the proposed changes to the Municipal Act will affect local garages and service stations isn't quite clear here as yet.

Ronald Prosser, president of the local garage and service station organization, said his group is awaiting full information on the changes planned to the act. It was announced in Victoria that operating hours would be placed in the hands of

municipal councils and taken out of provincial control.

Mr. Prosser, while favoring the move, pointed out that what the local association is striving for is a situation where the maximum service can be rendered to the motoring public and at the same time maintain some leisure time for the operators.

One point that needs to be clarified, according to Mr. Prosser, is what effect, if any, the proposed legislation will have on garages and service stations in the rural (unorganized) areas.

The situation in Kelowna at the present time is wide-open. It would appear, however, that under the amendments planned by the Legislature, new bylaws would be required.

According to the Canadian Press report, the new system says:

1. If councils pass no bylaw, all service stations must close by 6 p.m.

2. Council may pass by simple majority a bylaw allowing the stations to stay open until 9 p.m. from May to September and until 7 p.m. from October to April.

3. Council may pass by two-thirds majority a bylaw allowing garages to stay open as long as they want.

It's up to the councils to decide whether they will allow 24-hour service for all service stations or a certain percentage, the CP story said.

## Two School Bands Entertain Large Rutland Crowd

RUTLAND — Rutland and Salmon Arm high school bands provided an enjoyable evening for a large number of persons who filled the stands at the Rutland gymnasium Friday evening.

The Rutland band, the dance band and the Drum Majorettes provided the numbers for the first part of the concert, under direction of Gordon King, while the Salmon Arm high school band provided the music for the second part. The massed bands contributed a number of fine selections together, to make up a band concert that was the best heard in the locality in many years.

The Salmon Arm band was directed by Terry Elford.

The ladies of the fire brigade auxiliary held a successful cooking sale at Woulf's Rutland Variety Store Saturday.

The Rutland Women's Institute held an enjoyable card party on St. Patrick's Day, in the fire brigade meeting hall. Bridge and whist were played, and refreshments served at the close. Prize winners were: bridge, first lady's, Mrs. R. Milne; first gentleman's, Robert Milne; consolation, Mrs. T. Valdez. Whist, first lady's, Mrs. N. McLaughlin; first gentleman's, H. Whittaker; consolation prizes, Mrs. W. Quigley, Mrs. G. Cross. A small raffle was also held, the winner being Mrs. McLaughlin.

Mrs. J. Bateman is visiting at Vancouver and other coast points this week.

Mr. R. C. Lucas, local postmaster, is taking a short holiday at this time.

## POLICE COURT

Appearing in district police court here on a charge of exceeding the 50 miles an hour speed limit near Peachland, Archie Thompson paid a fine of \$20 and costs. He was also charged with driving over a double line and was fined \$10 and costs.

Pleading guilty in city police court Monday to a charge of driving a motor vehicle over a fire hose (during the Simpson-Sears fire), Robert G. Bury was fined \$15, plus \$3 costs.

## East Kelowna Guides Officials Attend North Division Meeting

EAST KELOWNA — Present at M. Husband, North Okanagan division meeting of the North Okanagan division of the Girl Guide association last weekend were members of the East Kelowna Guide committee and Mrs. W. Hince of the Brownie pack.

The meeting was well attended. Following a blessing by the bishop Rt. Rev. A. H. Sovereign, an enjoyable luncheon was served, after which District Scout Commissioner Pitt welcomed the guests.

Bishop Sovereign spoke on guiding and commended the work being done by leaders. Later, films were shown of guides in camp. "We in our Guide company feel that this centennial year of our founder, Lord Baden Powell, has meant a lot to us," said Mrs. D.

TEA SUCCESSFUL

The St. Patrick's Day tea held in Community Hall Monday was highly successful.

The event was sponsored by members of St. Mary's Parish Guild.

Colorful spring flowers decorated the attractively arranged tea tables, and truly Irish goodies were served to a large number of guests.

The home cooking table had an appetizing display, and at the needlework table, many useful articles were offered for sale.

First prize in the guessing game was won by Mrs. S. D. Price. Mrs. W. Hince was winner of the second prize, and third prize went to Mrs. Hall of Okanagan Mission.

Proceeds from the afternoon will go to the Guilds funds.

Weekend guests at the home of Mr. and Mrs. S. Heintzman were their son and daughter-in-law, Mr. and Mrs. Albert Bianco and family of Salmon Arm.

L. G. Butler, a patient in Kelowna General Hospital, is reported to be progressing favorably.

## AT WINFIELD

## Well-Known Man Dies

WINFIELD — Funeral services were held in Lumby Monday for Francis Joseph Ratcliffe, who died in Vernon Jubilee Hospital, died in Vernon Jubilee Hospital, died in Vernon Jubilee Hospital, died in Vernon Jubilee Hospital.

Surviving is his wife, Margaret, in Winfield; eight children, James, Mary, Caroline, Hugh, Elizabeth, Vincent, Albert and Jeanine, all of Winfield; his mother, Mrs. Joseph Ratcliffe of Saltcoats, Sask.; a sister, Mrs. I. Pawluk, and one brother, Robert, in Saskatchewan. Another brother, James, is a missionary in North Africa. Mr. Ratcliffe also leaves uncles and aunts in England.

Requiem mass was celebrated by Rev. Michael O'Reilly at the Sacred Heart church in Lumby. Burial followed in Lumby cemetery.

## LeBrun Acquitted

After a preliminary hearing on a charge of theft of monies from Pettman's Grocery, Victor Ovila LeBrun, 39, who moved to this district several months ago, was acquitted.

Police Magistrate Donald White told LeBrun that after re-examining the testimony he did not find sufficient evidence to commit him for trial "and therefore the charge is dismissed."

LeBrun, however, has most of 15 months imprisonment still to serve. He was sentenced to that term nearly two weeks ago on a charge of housebreaking and theft.

## Supports Kelowna's Naramata Road Plan

PENTICTON (CP) — Board of Trade president Alec Walton has announced that his group will support any action by the Kelowna board toward completion of 12-mile Naramata Road between Kelowna and Penticton. He said that at the same time the Penticton board will "press the provincial government for action."

### DIG THIS CRAZY CUP

A regular roof-raising took place in the Kelowna Packers' dressing room last night, following their thrilling win over Kamloops Chiefs for the Willoughby Cup. One of the happiest fellows in the room was

goalie Dave Gatherum, celebrating his first shut-out of the season, seen holding the trophy, above. "No, sir," he told photographer Irving Gorby, "you don't take me without the guys who made it possible."

Surrounding him are three of the blue-line staff, left to right, Pat Coburn, Orv Lavell and Harry Smith. Big Andy McCallum didn't make it through the mob in time. —(Courier Staff Photo)

### SPORTLIGHT

## St. Pat's Day Came Late, O'Reilly's Packers Didn't

By GEORGE INGLIS  
(Courier Sports Editor)

Shure, an' it was a great day for O'Reilly yesterday. The black-browed Irishman was a wound-up leprechaun in the Packers' dressing room last night, cavorting gaily with his delicious crew, celebrating both a delayed St. Patrick's Day and a championship with the same hoop and holler.

For coach Jack O'Reilly, it was more than just a victory and a trophy, it was the answer to the Doubting Thomases who pursued their lips at various times during the year, and prognosticated, "It's just like every other year, they are just flashes-in-the-pan."

To the gay, perspiring warriors in the red and white jerseys, it was the moment to let down their reserves, unwind taut nerves and do a little plain-and-fancy yelling. They were too ecstatic to stop and think of the drama of the moment, just wild with exuberance and healthy animal spirits.

The cluttered dressing room was a confused tangle of well-wishers and rooters, falling happily over the legs, kit bags and equipment in the space between the benches lining the walls, but nobody seemed to notice anything unusual. Everybody was talking at once, and nobody was too concerned with hearing what anyone else said, they had the text down pat.

This was the moment that they had been playing for throughout the season, in 69 games of exhibition, schedule and play-off hockey, the moment which made this season just history in the OSHL record books. It was another "first" in a series of record-breaking firsts that O'Reilly and his boys have established this year, and sets the stage for bigger things to come.

The harmony that has been the key-note of the Packers operation this year had swelled into an ear-splitting symphony. The musicians were a bunch of half-dressed, wild-eyed young men with their brazen showing.

To three guys in that dressing room it was a particularly poignant moment. Coach O'Reilly was one of the "old originals" that stood in the crowd the day the arena was dedicated in Kelowna, back in 1948, and wore the Packers uniform in that first year of senior "B" play.

Big Jim "Moose" Middleton, captain of the club and the veteran member of the Packers, had been forced to hang up his skates in disappointment for all those seasons since, with the exception of the one year they beat the same Kamloops club in an upset victory, to take the same Willoughby Cup.

Rangy Mike "Curly" Durban, native of the same prairie city as O'Reilly, Portage La Prairie, joined the club the year following Moose, and has suffered all the same agonies. This trio were especially happy.

But they were all equally noisy, sweaty and exuberant. Pat "Paddy" Coburn and his defence mate, Harry "Hurricane" Smith, the mainstay of the rearguard this season; Orv "Stretch" Lavell and his mate Andy McCallum, both game guys in spite of sickness and injuries that have plagued them this year, the other members of the blue-line patrol.

Centre men Joe "Joe-Joe" Kaiser, Bill "Bugs" Jones and Bill "Swiggle" Swarbrick, sharing the happiness, experienced happiness for the return of Ray "Scorch" Powell to the line-up in the winning game.

Wingers, Brian "Rocky" Roche, Gordon "Moe" Young, Bill "Kid" Voss, Greg "Zeb" Jablonski, the old and the new of the line-up, they were all equally happy.

And Dave "Stump" Gatherum, the guy responsible for a large measure of their success, didn't seem to mind much whether he got those big goalie pads for or not, following his first shutout of the season.

They are facing upwind now, where every game they win will be an achievement to add to the fine record they have built up so far this season, partly on ability, but largely on harmony, courage and the will of champions.

Hats off to you, Kelowna Packers.

### Dunlop Star Set For Habs Roster

MONTREAL (CP) — Connie Broden, star of the Whittby Dunlop world championship hockey team, is to play for Montreal Canadiens tonight in their first game of the season against Toronto Maple Leafs.

### Dusty's Headaches Traced To Scalp

PHOENIX, Ariz. (AP) — Dusty Rhodes' headaches apparently are due to inflammation of a scalp artery, trainer Frank Bowman of the San Francisco Giants said today.

### VISITING CAGETTES TO GET TREATMENT

Tough opposition and Orchard City hospitality are in store for the visiting senior "B" girls basketball teams this weekend, when they come to Kelowna for the B.C. play-offs.

Coach Bob Hall, mentor of the local Teddy Bears and president of the local cage association, has arranged for the girls to be billeted in homes throughout the city, and has Apple-Cot Nectar for them to swig after every game.

However, coach Hall is confident that his girls will give an excellent account of themselves against Trail, Vancouver and Victoria clubs taking part.

### Marksmen Plan To Open Sunday

The BCD Rifle Association are planning their first shoot of the season for this Sunday at the Glenmore Ranges.

This sighting-in shoot will be open to anyone interested in target work, and newcomers to the club will be welcomed.

Equipment for shooting will be supplied by the club, for those not having it, and the cost of participating is nominal.

### Sudbury Youth Tops U.S. Skiers

WINTER PARK, Colo. (AP) — Top-seeded Brian Burnett of Sudbury, Ont., leads a field of 71 boys today in the downhill race, first event in the national junior ski championships.

The boys, none older than 17, race over a 1½ mile course that drops more than 1,500 feet in altitude. The event begins at 11 a.m. MST.

Snow conditions on the course were described by many of the competitors as perfect.

### NHL PARADE

By THE CANADIAN PRESS  
Standings: Montreal, won 42, lost 15, tied 10, points 94.  
Points: Moore, Montreal, 79  
Goals: Moore, 34

Horvath, Boston 29 34 63  
Litzenberger, Chicago 29 28 57  
Delvecchio, Detroit 19 30 55

# Packers Clobber Chiefs In Drama-Filled Finale

The Packers "moment of truth" was pregnant with drama last night in the jammed Memorial Arena, as the high-flying league titans rapped the Kamloops Chiefs 3-0, giving goalie Dave Gatherum the first shut-out of the long season, and capturing the Willoughby Cup for the championship of the OSHL.

Close to 3,000 people watched the two clubs battle it out in a game that was tight, clean and rugged, a game when the breaks told the tale. Each of the three lines figured in the Packers scoring, with veteran Mike "Curly" Durban getting one, and Ray "Scorch" Powell adding insurance. Rangy

Greg Jablonski, playing his best game in three years with the club, added the icing to the cake. For 20 thrilling minutes the clubs battled in scoreless hockey, broken only by an eight-minute recess when Chiefs goalie Jim Shirley had a cut in his hand repaired, but the slim net-minder held the Packers out even though they out-shot the Chiefs 15-3.

In the second frame, Durban opened the scoring when he tipped in Harry "Hurricane" Smith's point drive, and earned the only tally of the frame. It was still anybody's game until half way through the second frame, when Brian Roche broke out of his own end, handed a pass to Powell at the blue line and he moved in with his bewitching shift and drove a low, hard back-hand that dented the twine.

Just 37 seconds and a line change later, young Jablonski, playing the best game of the season with the club, took Kaiser's pass in the Chiefs' end and drove it hard into the net for the one that broke the Chiefs' hearts.

The boys went into a deep freeze then, protecting the shut-out for "Stumpy" Gatherum, the first one the "most valuable player" has earned this season. The jammed house stayed in their places long enough to watch league president Bill Nicholson of Penitence present the Willoughby Cup to team captain Jim Middleton, winner of the league scoring this year, and the only man on the Packers who has played since they turned senior "A" in 1949.

Then pandemonium broke loose, as the Packers fans celebrated a minor and misconduct penalty. Other goal scorers for Rossland were Frank Turik, Hal Jones and Don Fletcher who bagged the winner with only 55 seconds remaining in the second period.

Despite being the bad man of the night Gordichuk scored once and helped set up Tic Beattie's first period marker. All-star defenceman Yogi Kruger was honored by Rossland fans as the most valuable to his team during a between-period ceremony.

## Rossland Club Ties Up Series

ROSSLAND, B.C. (CP) — Two goals within a minute in the third period broke the back of Spokane Flyers Wednesday night as Rossland Warriors defeated the Flyers 5-2 in the fourth game of their Western International Hockey League final.

The victory deadlocked their best-of-seven series at two games each. Fifth game will be played in Trail on Friday.

Norm Lenardon and linemate Leo Lucchini scored within 45 seconds of each other in the third period while Spokane's Dave Gordichuk was sitting out.

## Ogopogo Bonspiel Entries Show Full Slate Of Rinks

The Ogopogo Bonspiel starts on March 26, and by all accounts will be a huge success. Twenty-three outside rinks entered, two from Vancouver and the rest from the interior. Twenty-one local rinks will also be competing for the bonspiel honors, and prizes.

Kelowna curling rink has taken on the new look with alterations to the waiting room and coffee bar from the comments heard around the rink everyone is happy with the added room and pleasant surroundings.

Local club draws are finished for this year, the George Turner rink of Jack Tucker, Dave Whyte, Ken Sutherland winning the Long Super Drug Trophy, and the Don Lange Trophy for Club Championship. The Crete Shirreff rink of Al Selem, Fred Walman and Jack Gordon winning the Lipsett Motors Trophy.

Was a very successful season by all accounts—any new ideas or suggestions will be welcome at the annual curling meeting later in the year. The season is drawing to a close with the Ogopogo Bonspiel. It is hoped all curlers will enjoy their last fling of the stones during this spiel.

Spectators are welcome to visit the rink during the bonspiel or any time if they wish. Draws will be posted as soon as available, and published in the Daily Courier.

## Mounties Camp Gets Two More

MESA, Ariz. (CP) — Baltimore Orioles have sent Wayne Causey and Gordon Sundin to the Riverside, Calif. camp of the Vancouver Mounties.

Causey, one-time bonus player with the American League club, is slated to join Louisville's infield corps eventually. Sundin is a 6 foot 4½ pitcher who is struggling to come back after being sidelined with an elbow operation two years ago.

## B.C. Lions Sign Another Prize Import Catch

VANCOUVER (CP) — British Columbia Lions announced today the signing of end Howie Schnellberger and let it be known they consider him one of the prize catches of the 1958 Canadian football season.

A 215-pounder from the University of Kentucky, he was an Associated Press all-American in his senior year, 1955.

Ed Vercy, top man of the Lions' 1956 backfield, recruited Schnellberger along with quarterback George Herring. All played U.S. Army ball last season at Fort Knox.

Lions also announced end Jerry James, six-foot-five, 240-pounder from Louisiana, has signed for 1958.

for SOCIAL SECURITY

- SICKNESS INSURANCE — Unemployment Insurance Benefits to people out of work through illness.
- HEALTH INSURANCE — Provision against major medical, dental and surgical expenses, will be added to the Hospital Insurance program set up by the last Liberal Government.
- OLD AGE ASSISTANCE — For unmarried women and widows; pensions at 60 instead of 65.
- NATIONAL PENSION PLAN — Prompt action towards a national contributory pension scheme, coordinated with present provisions for retirement and old age security.
- FAMILY ALLOWANCES — Payments continued to age 18 if the boy or girl stays in school.

Four out of every five Canadian Social Security measures were the work of Liberal government, giving Canada one of the soundest social security systems in the world. Through the above measures, the Pearson Plan will make this system even better, giving more confidence in their future to all our citizens.

FURRED ENSEMBLE

By ALICE ALDEN  
The fur-trimmed suit has such a soft and delicate air about it that we think it should always be part of the spring scene. Well, this spring it is, and Branel does an especially nice

job of it. Norwegian blue fox collars a lightly fitted jacket of beige wool that accompanies a matching dress. This has brief sleeves and a collarless neckline circled and bowed with matching grosgrain.

#### LET'S EAT

### Here's An Indian Curry Recipe Every Homemaker Can Prepare

The beautiful banquet hall of the Treadway Inn at Niagara Falls was set to capacity for guests at our food talk and demonstration of "A Bride's Dinner Party."

At the far end of the room, stood a big gas range with oven and top-of-range heat controls and a demonstration table with a huge overhead mirror, suspended so everyone could see the food preparation.

#### PROCEEDS FOR CHARITY

The show was sponsored by St. Mary's Mothers' Club of Niagara Falls and the proceeds from the sale of tickets were to be used for charity.

The Chef acted as M.C. I was introduced by Mrs. Albert McKenna, President of the Club, and Home Economist, Alexandra Rymanczuk, who was kindly loaned to us by the Home Service Department of the Iroquois Gas and Electric Co., prepared the foods as I commented and explained.

#### DEMONSTRATION GUEST DINNER

##### ENJOY IT TOMORROW

Consomme with Mushrooms

Shrimp-Vegetable Curry in Rice Rings

Chutney Coconut Chips

Sliced Scallops

Toasted Almonds

Tossed Lettuce-Cress Salad

Orange-Filled Cake

Coffee Tea Milk

All measurements are level; recipes proportioned to serve 4 to 6

Shrimp and Vegetable Curry: Have ready 2 lbs. cooked fresh or thawed frozen shrimp. Halve large; leave whole if small. Prepare Indian vegetable

curry sauce. Add the shrimp and heat.

Serve spooned over flaky rice or in a rice ring.

#### Indian Vegetable Curry Sauce:

Melt 3 tbs. butter or margarine.

Add 2 thin-sliced, peeled, medium onions, 2 sliced, peeled small carrots and 1 c. shredded fresh or frozen green beans. Stirry until color turns.

Add 1 tsp. curry powder. Stirry a few seconds longer.

Stir in 1 tbs. flour, 2 1/2 c. mashed canned tomato and juice, 2 1/2 c. boiling water, 2 bouillon cubes, 1 grated small red-skinned apple and 1 tbs. pickle relish or minced chutney. Simmer 5 min.

Orange - Filled Cake: Put together 2 layers rich layer cake—home-baked, purchased or made from a mix—with orange filling. Finish with orange-butter icing.

Border this with green grapes, toasted halved almonds and glaze cherries.

Orange Filling: Mix together 3 tbs. flour, 1/4 c. sugar, 1 slightly beaten egg, the grated rind of 1 small orange, 3/4 c. orange juice, 1 tbs. lemon juice and 1/2 tbs. butter or margarine.

Cook 10 min. over hot water, stirring occasionally. The filling should be quite thick.

Cool until tepid before using.

#### TRICK OF THE CHEF

Make orange cake filling with equal parts orange juice and light Catawba grape juice.

CORRECTION

It was erroneously reported yesterday that Mrs. D. C. Vivian had attended funeral services for her mother. This should have read grandmother.

#### HITHER AND YON

MISS MARY GOWAN, daughter of Mr. and Mrs. Charles Gowan, has passed her final R.N. exams at Royal Columbian Hospital, New Westminster, and will take part in the graduation ceremonies at the end of April.

PRIOR TO THEIR DEPARTURE next month, Mr. and Mrs. A. E. Walters are being widely feted. Last week Mrs. H. A. Shaw and Mrs. H. R. Long entertained in honor of Mrs. Walters at a bridge party, when presentation of a charming farewell gift was made.

On Wednesday, Mrs. W. S. Fry gave a small luncheon, and Mrs. J. B. Lander honored the departure and a number of her friends at the tea hour. On Sunday evening Mrs. Joe Capozzi will be hostess at a supper party for Mrs. Walters' bridge club.

Saturday evening Bank of Montreal staff members and their wives will be entertained at a party to be held at the home of Mr. and Mrs. D. W. Peschey. Tuesday, Mr. and Mrs. N. Vander Vliet hosted a small late afternoon party for Mr. and Mrs. Walters and Mr. and Mrs. E. R. F. Dodd, who are also being widely entertained before their impending departure.

### Local Doctor Will Address PTA Meeting

Dr. S. C. Robinson of the Underhill Clinic will be speaking at the next general meeting of the Kelowna Elementary PTA, to be held Monday, March 24, at 8 p.m., in the lunch room of the Senior High School. Dr. Robinson will speak on the "Causes and Cures of Juvenile Delinquency As Seen By A Doctor." He will cover some of the emotional and psychological aspects of this problem, a phase that was lacking in the Panel on Juvenile Delinquency recently held. Questions will be welcomed.

PARENTS WIN CALGARY (CP) — Moms and dads won handsily in a competition against teen-age students at a junior high school here. The winners won by 70 to 40 points, shining in spelling, art, music, economics and showwork, but losing to the students in the quizzes on world affairs and books.

Young children's feet may grow a shoe size larger within two months.

### Final Presentation At Palace Has Debs In Preparation Flurry

LONDON (CP) — There's more than the usual hustle and bustle among this year's debutantes. For, with the excitement of practicing curtsies and choosing the appropriate gown, the excited teen-agers are conscious that they will be the last debs to be presented to the Queen in the gold and white ballroom of Buckingham Palace.

Three presentation parties scheduled for this month and one for Commonwealth debs in July will be marked down as the last of their type.

The announcement, made by the palace last November, indicated that more and bigger garden parties will be held annually at the palace where the Queen can meet people from all walks of society more informally rather than receive the curtsies of a selected few.

A change in the method of presenting people to royalty is nothing new. Presentation at court long been a British custom throughout history and the particular custom has changed according to the times.

As far back as 1703 Queen Anne received "people in her drawing room and King George II held levees. King Edward VII held evenings at court when ladies were presented in flowing evening dress and feather boas.

After the Second World War, King George VI introduced the present method of afternoon presentation parties.

About 50 Canadian girls will be among the last batch of teenagers to be presented to the Queen in July.

#### PEACHLAND

PEACHLAND—Mr. and Mrs. Earl Sutherland have returned from Vancouver, where they have been spending the winter.

Visitors at the home of Mr. and Mrs. Gordon Wyatt at the weekend were their nephew, Lester Johnson, of Edmonton, who has been spending a holiday with his mother, Mrs. M. Fretag, and his brother-in-law and sister Mr. and Mrs. Ken Luck, and two children, Karen and Wayne, all of Penicton.

Mr. and Mrs. A. Gross of Winnipeg were visiting Mr. and Mrs. John Knoblauch at the weekend.

Mr. and Mrs. John Cameron have returned to their home from Shaw Springs.

Verne Ferguson, who has been spending his holidays with his mother, Mrs. M. Ferguson, Trepanier, leaves for Kitimat on Thursday to resume his work on the staff of the Bank of Montreal.

Roger Knoblauch, who has been a patient in the Revelstoke Hospital for a week, is expected home at the end of the week.

Mr. and Mrs. Greg Burns were visitors in Chilliwack at the home of Mr. Burns' son-in-law and daughter, Mr. and Mrs. G. Rollheiser, during the weekend.

#### TIPS ON TOURING

By CAROL LANE  
Women's Travel Authority

Mind your motor manners and you never can be accused of being a despotic driver or a rude dunder of the road. Even more important, you'll greatly decrease your chances of becoming "an accident going somewhere to happen."

If you don't want to qualify as an automobile autocrat or a boorish bumper-bender, you might make the following your "code of the road":

1. Don't cheat at a red light or a stop sign any more than you would at a game of cards.
2. Share the road instead of usurping the right of way from other cars and pedestrians.
3. Never use your horn to threaten or scold, but as a warning device in emergencies.
4. Politely dim your lights when

meeting other cars at night.

5. Park so you do not use up other parking spaces or impede the movement of other cars.

6. Be considerate by driving at reasonable speeds.

### Swedes Reluctant To Emigrate Living Standard High At Home

Written For The Canadian Press By MARGARET FRANCIS

STOCKHOLM (CP) — A pretty blonde Swedish nurse apologized for her English, then asked timidly: "What is Canada really like?"

"I am engaged to an engineering student at university. We think we might want to go to Canada after we're married. Would there be opportunities for us?"

This is typical of the questions asked on phone calls and personal visits by Swedish people who talk to Canadian Ambassador Jean Chaperlain and his staff.

Most of the inquirers don't follow through.

#### 100 A MONTH

Immigration to Canada from Sweden in 1957 averaged about 100 a month. In 1956 600 persons out of a population of 7,000,000 went to Canada from this country.

Canadians in Sweden agree that Swedes with their efficiency, high technical skills, their industry and excellent health would make ideal Canadian immigrants. The two countries have similar industries such as lumbering, fishing and mining as well as similar physical characteristics and climate.

The Swedish welfare state is the reason for their reluctance to emigrate. The generous family allowances, socialized medicine, security for older people, subsidized housing and state nurseries that enable wives to work, provide the average Swedish family with something they are afraid to leave.

"They have a safe future and one of the world's highest standards of living," said a representative of the Canadian immigration service. "The majority of the Swedish people won't gamble what they have here for the possibilities in Canada."

There are, however, some notable exceptions: Young professional men looking for greater opportunities, executives who have reached a comparatively high income bracket, the small industrialist.

On a train between Linköping and Stockholm, the middle-aged executive of a large company had many questions.

"To live as I want," he explained, "I have to get out of Sweden before it is too late to start somewhere else. I don't

know whether to choose Canada or South America."

The owner of a small, prosperous manufacturing firm joined the discussion. He said that life was good in Sweden, for the wage earner whose security is assured.

But the small industrialist frets under state regulation of industry and high income taxes. The welfare state costs money, with 25 per cent of the national budget going to social security.

The average wage earner, it is estimated—no matter what his income—gets back from the welfare state each year in benefits, including family allowances and old age pensions, between 500 and 600 crowns or \$100 to \$120.

Living costs in Sweden are much lower than in Canada and when the earner has reached the equivalent of \$200 a month—a good salary—he pays from 20 to 25 per cent in taxes. At \$9,000 a year he will keep between four and five-fifths of what he earns.

Finally, people apparently feel differently. The Canadian Embassy in Helsinki. In the last 10 months of 1957 more than 7,000 Finns, including many bush workers, emigrated to Canada.

"It will increase next year," said a Canadian immigration official. "One satisfied immigrant is our best recruiter and will bring in 50 applicants."

The legend of Atlantis—a lost city below the sea—was described by Plato in 350 B.C.

### A CONVERTIBLE FOR ONLY \$650

1953 Austin

With summer almost here this is ideal transport for business or pleasure... for town or country, plus all the benefits of the British car.

- Economy... 35 mpg.
- Big enough for all the family... small enough for easy parking.
- Radio installed
- 1958 Licence
- Rebuilt motor
- Insurance for 6 months
- New tires

Privately owned by reputable Kelowna resident.

### Scrumptious!

Coffee cake at its best... sweet and scrumptious! And so easy to make with Fleischmann's Active Dry Yeast when you bake at home. Surprise your family tomorrow!

#### Butterscotch coffee cake

1. Measure into bowl 1/2 cup lukewarm water

Stir in 1 teaspoon granulated sugar

Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well.

2. Sift together twice, then into a bowl 2 1/2 cups once-sifted all-purpose flour

1/2 cup granulated sugar

1 teaspoon salt

1/2 teaspoon grated nutmeg

Cut in finely 1/2 cup chilled shortening

Beat until thick and light 2 eggs

and stir into dissolved yeast.

Make a well in dry ingredients and add yeast mixture, mix well, adding a little additional flour, if necessary, to form a soft dough.

3. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl. Brush top with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 1/2 hours.

4. Punch down dough. Halve the dough. Roll each half into a 9-inch circle and place on greased cookie sheets. Brush each circle with melted butter and margarine. Cover. Let rise until doubled in bulk—about 50 minutes. Bake in a moderate oven, 350°, about 30 minutes. Cool and spread coffee cakes with the following butterscotch icing:

Measure into a saucepan, 1/2 cup lightly-packed brown sugar, few grains salt, 3 tablespoons butter or margarine and 4 tablespoons cream; stir over very low heat until sugar dissolves. Remove from heat and work in 1 1/2 cups (about) once-sifted icing sugar—use enough sugar to make on icing of spreading consistency. Stir in 1/2 cup coarsely-chopped toasted pecans and 1/4 teaspoon vanilla. Yields 2 coffee cakes.

5. Measure into bowl 1/2 cup lukewarm water

Stir in 1 teaspoon granulated sugar

Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well.

2. Sift together twice, then into a bowl 2 1/2 cups once-sifted all-purpose flour

1/2 cup granulated sugar

1 teaspoon salt

1/2 teaspoon grated nutmeg

Cut in finely 1/2 cup chilled shortening

Beat until thick and light 2 eggs

and stir into dissolved yeast.

Make a well in dry ingredients and add yeast mixture, mix well, adding a little additional flour, if necessary, to form a soft dough.

3. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl. Brush top with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 1/2 hours.

4. Punch down dough. Halve the dough. Roll each half into a 9-inch circle and place on greased cookie sheets. Brush each circle with melted butter and margarine. Cover. Let rise until doubled in bulk—about 50 minutes. Bake in a moderate oven, 350°, about 30 minutes. Cool and spread coffee cakes with the following butterscotch icing:

AFTER-FIVE FARE

By TRACY ADRIAN  
Designed especially for important afternoons and informal dining out, this dress would also be a good choice for an evening at the theatre. Of rose

beige satin velvet, the frock was created by Eleanor Garnett in her workshop in Rome. It has a square neckline, three-quarter sleeves and a full, graceful skirt. A matching turban completes the picture.

GINGHAM CHECKS FOR SPRING

ELEGANCE IN LACE.

By ALICE ALDEN  
The age-old lure of lace is beautifully expressed in many of the dresses made for the season ahead. Pale, ice-blue Chantilly lace is the choice of Philip Hultar for this exquisite floor-length sheath with softly

folded train. To emphasize the lovely lace and the sleek lines, the designer has placed an enormous satin puff at the side back. Here is that rare combination of great elegance and ease that is so much desired but so infrequently found.

ENCOURAGES ROMANCE  
STAPLEFORD, England (CP)—The Anglican vicar of this Nottinghamshire community, Rev. J. Lamoh, has waived all fees for old age pensioners who want to marry in his parish.

STEALS SHOW  
THE PAS, Man. (CP)—Mrs. Ellen Colomb, 64, of the Pukatawagan area of Northern Manitoba, starred at a street celebration in the trappers' festival with her dancing exhibition of old-time steps.

REAL EMERGENCY  
RICHMOND, England (CP)—Screams from an elderly woman brought a bus to an emergency stop in this Surrey town. She had spotted a mouse running under her seat.

END LONELINESS  
LONDON (CP)—Postmen, milkmen and garbage collectors are helping search for the 150 loneliest old folk in the Camberwell district. Winners of the unique contest will be offered two weeks' holiday at the seaside or in the country.

## Colorful Shoes For All Groups Emphasis On Slim, Trim Lines

With Easter in the offing and spring on the way, this season's footwear styles blossom forth in a galaxy of color. Women's shoes are pointedly chic. Men's styles show a greater variety, the lighter look with emphasis on ventilated patterns. Even children's shoes begin to take on a slimmer line.

Men, women and children will step into spring in footwear that shows a varying degree of slims and greater use of color. In women's the tapered, pointed or needle toe and slim heel is vogue. Fear that pointed toes might cause discomfort is quickly dispelled as women find that the new last allows for the proper width across the ball of the foot, and since the pointedness occurs beyond where her toes end, her feet should not only feel better but look prettier too.

Men's shoes are lighter in appearance, neater and trimmer looking, more refined as to detailing.

While fashion change doesn't occur as rapidly in children's shoes as in adults, the "fashion with comfort" trend is already evident to some degree. This lighter, slimmer look is in complete harmony with comfort and proper foot development.

It's a colorful season for all groups. With women, the early spring leader is black patent, along with black calf, with smooth leathers topping the list. Red is the exciting and number one bright, followed by brighter blues. The brown family remains in favor—especially the beiges, off-whites and neutral tans. Delightful floral patterns abound in silk and linen fabrics.

Children's colors reflect grown-up trends but here the brights are most often seen as trims. Black patent leads in dressy types, followed by black and white smooth leathers, and red.

In the men's field, emphasis is on three and four-eyelet styles, also five-eyelet, in black and brown and combination colors designed for all occasions. Slip-on styles promise to be popular and many are suitable for every occasion and definite casual wear. Possibly, first choice will be the ventilated fronts, but woven leathers, shantungs and nylon mesh combinations will also highlight the men's style picture. All are appropriate for dress and business wear. In leathers it's smooth or fine grains, most important new detailing influence, the stitch-and-turn fronts in all

combinations, as well as in black, brown, combination types, and ventilated shoes.

TASTEFUL ENSEMBLE

WELL HIDDEN  
CHADDESDEN, England (CP)—Mary Maxwell found a good place to hide her key when she was out—in the coalbin. But she returned one day to find the coal merchant had dumped several hundred pounds of coal in it. The fire brigade came to her assistance and retrieved the key.

FINED AND LECTURED  
LONDON (Reuters)—Magistrate Frank Milton fined four persons £1 each after they pleaded guilty to being drunk and disorderly at a wedding party. He told them: "Because the happy couple is going to begin fighting for the next 40 years, that is no reason why you should join in."

## Teens Approve Chemise First

The new chemise, with its slim lines, its "leggy" look that gives an illusion of added height and its general air of youthfulness might almost have been created specifically for juniors and for the ever-growing ranks of teens who are taking to junior fashion or, at least, fashion with the more sophisticated "junior look".

There is certainly no doubt that the chemise caught on fast with this group when it was first introduced partly because the young set has always been less timid about trying new styles than their older counterparts, and has hit the peak of its popularity with them this spring.

The many variations of chemise styles for juniors reflect not only this popularity, but also the many roles that these girls are called upon to play. Today, the junior may be a school-girl, a career girl or a young married.

Accordingly, her favorite chemise might be anything from an ingenue-look jumper with a companion blouse to a very exotic style that shows an Oriental influence.

In addition, she has a great many other favorites to choose from to suit the demands of her busy life. These include blouses, two-piece dresses, molded sheaths, shirtwaists and a great variety of suits and costumes.

For late-day and evening wear, there are lots of bouffant skirts, harem hemlines, wrapped, draped and tied midriffs and waistlines.

Often the junior's chemises have Empire detailing and stand-away spreading collars that suggest top-width to balance the narrow-hipped silhouette. Double-breasted buttonings are popular as is hipline detailing, back blousing, cardigan styling, cocoon-shaping and mock jacket fronts.

**WELL-COMPOSED COSTUMES** Some have adjustable bows at the bust, others have a modified blouse or eased sheath with the addition of a belt.

New costume ideas include Oriental print silk sheaths with kimono-like tops, dresses with pleats falling from a natural or dropped waistline under coats that may be full or seven-eighths length, and patterned overblouses to wear over a plain dress.

Favored costume jackets are blouses, unfitted hipbone lengths, boleros, tunics, cut-away styles that dip low in back. Great coats and Chesterfields are dramatic costume toppings in prints.

Silk prints are popular, especially in blurred floral patterns and jewel tones of red, blue and green. Favored, too, is a miracle fiber fabric with the look of wool serge and in pinchecked patterns.

Tweedy silk-and-cotton is liked in pale grey or beige as well as knits of all kinds.

### THANK KHRUSHCHEV

CAIRO (AP)—A spokesman of the Algerian National Liberation Front (FLN) said Monday night it has cabled thanks to Moscow's Nikita Khrushchev for his interest in the FLN struggle with France. The spokesman said Khrushchev had said in a speech last week that humanity should not remain idle in the face of French atrocities in Algeria.

### TOO MUCH SNOW

MONTREAL (CP)—Montreal's weekend snowfall of 16.2 inches—bringing the season total to date 103.1 inches—prompted the city executive committee Monday to ask for another \$300,000 for clearing purposes. Chairman J. M. Savignac said snow removal thus will exceed \$4,500,000 in cost as compared with less than \$3,000,000 last year when only 58 inches fell.

## BATHING BEAUTY

By TRACY ADRIAN

Here's a flattering, beach ensemble—for tropical bathing, to take on a cruise ship, or around home this summer.

The jacket is of vibrant red faille with wrist-length sleeves,

a four-button closing and really deep pockets designed to hold compact, lipstick, cigarettes and billfold. It is shown with a one-piece swimsuit of red and gray striped boucle latex. For extra spice the suit is edged with a solid red border.

LOOSE SHORTIE

COOL CLOCHE

SOPHISTICATED STRAW

SPRING SWEETHEART

**ACTIVE COUPLE** LEICESTER, England (CP)—Snowdrifts held up the car in which Rt. Rev. B. R. Williams, Anglican Bishop of Leicester, and his wife were travelling. The bishop and his wife abandoned the car, donned their skis and skied for a nearby abbey.

**FINDS PEARL IN SOUP** COLLINGS BAY, Ont. (CP)—Mrs. Stanley Gavel crunched down on something hard as she sipped oyster soup Tuesday. Sure enough, it was a pearl, about one-sixteenth of an inch in diameter and too small to have any real value.

## OKANAGAN MISSION

OKANAGAN MISSION—Square dancing will be held at the Community Hall Saturday evening with Charlie Henderson, Glenmore, as caller. Hall memberships will be sold at the door.

Mrs. Wm. Barber and Mrs. Clarence Favell have returned from a month's trip to Windsor, Ontario, where they visited their sister, Mrs. Tony Marko. Mrs. Marko has been ill for some months. While there, Mrs. Barber and Mrs. Favell also visited

relatives and friends. Before returning home by train, they motored to Detroit.

Mr. and Mrs. Bill Sinclair Thompson entertained at a St. Patrick's Day supper party in honor of their son, Terry. A number of Terry's friends were invited to help him celebrate his twelfth birthday.

### FULLY EQUIPPED

EAST GRINSTEAD, Eng. (CP)—A woman in this Sussex community returned from a weekend holiday to find a roast of beef had been delivered—with the butcher's knife still in it.

## THE DAILY COURIER 10 THUR., MAR. 28, 1958

### NEED NURSES

EXETER, England (CP)—A new ward at a hospital in this Devonshire city has been unused for two years, because not enough nurses can be recruited to run it.

### CAGE EXPERTS

MARCH, England (CP)—The cage bird society in this Cambridgeshire community has set up a free advice service to help new bird-owners with their problems.

# This Season's Wool Suits Show Small Detail Changes

Distinctively tailored clothes are always an asset to men who must stand out as "personalities," rather than types; men who are constantly in the public eye selling themselves, their organizations, their ideas.

Men like the actor, Adolph Menjou, the famous industrial designer, Raymond Loewy; the permanent representative to the United Nations from the United States, Henry Cabot Lodge, lawyer-politician Adlai Stevenson, and scores of others realize this. And so do the leading clothing manufacturers.

For Spring '58 for example, top men's wear designers affiliated with well-known suit houses have styled their tropic-weight all-wool suits with "little" details that make a lasting impression. Here's what they've done to suits

this season to give them an elegant air. They've chosen fine wool-worsted suiting fabrics in muted patterns that tend toward medium to dark tones—and many with a high luster. Designers say they like working with wool because it lends itself to impeccable tailoring and to high fashion.

The season's newest suits come with shorter jackets. Last year's suit jacket is definitely out of fashion today. It's too long, lacks shoulder padding and hangs too straight. Spring '58's tropic-weight worsted jackets of wool have indentation at the waist to give men over 40 a more slimming appearance. Try on this new jacket model the next time you're out to buy a suit, and you'll notice a change for the better in your appearance. Junior executives, men in their middle twenties and early thirties, will find this spring's suit jackets more flattering, too.

What else is new? Suit trousers are more trim and tapered. There's a growing trend to forego a trouser cuff. Tell the alteration department to forget a cuff the next time you have a suit fitted. You'll be surprised at how a trouser without any extra material at the bottom makes you seem taller. This spring, don't shy from other "little" details, such as cuffed sleeves, that clothing designers have added to their fine wool-worsted suits to make them stand out from the run-of-the-mill. Cuffed sleeves, and some with half cuffs, show a careful attention to detail.

Another new style note you'll be seeing are slanted, flapped pockets. They're very much a part of the new silhouette in men's clothing.

The highly-styled 1958 raglan wool topcoat retains these cuffed sleeves, but in a modified form. It's a much shorter coat, too, thanks to Canadian tailoring, with narrower sleeves; and it's even more sporting in character than the raglan of the 1940's—more comfortable, less weighty, in today's modern lightweight wool fabrics, thanks this time to modern weaving and finishing techniques.

The houndstooth check pattern belongs to the raglan-shoulder wool topcoat. The houndstooth check is dressy enough for all but the most formal town occasions this spring. The pattern also lends itself strikingly to the coat's full sweep.

Mention the word, "chesterfield," and most men conjure up a wool herringbone topcoat sporting a black velvet collar. Look at any old-fashioned Christmas card and you'll probably see an English gentleman against a snowy background struggling to hold onto a dozen gift boxes, wearing his velvet-collared chesterfield.

The chesterfield is actually a single-breasted, fly-front wool topcoat reaching to the knees. The velvet collar is optional. The coat has either a plain back or one with a centre seam, and is designed with set-in sleeves. The plain-collar chesterfield is one of this spring's most popular lightweight wool topcoat models. Canadian men prefer wearing it these chilly mornings. Common sense tells them a lightweight wool topcoat set lightly on the shoulders helps them avoid colds. Topcoat colors haven't varied much in recent years; for years blue has been outstanding. Spring '58 will see light gray as the important fashion color for men in fine wool coats.

A completely new, fresh and devastating selection of dresses are awaiting your approval at Heather's. The sun-splashed colors and gay designs make these a must for every woman's wardrobe and will put you right at the top of the Easter Parade.

It's spring at Heather's... and with the coming of spring, heads turn to thoughts of hats, yes hats at Heather's, and we are happy to present to you a lovely selection of bonnets arriving just in time for Easter.

SEE YOU SOON

Sincerely Heather's

# Sports Coat '58 Light Weight Wool Casual

Now that spring's here, you'll want to own a new wool sports coat that reflects the taste and tempo of today. Choose a sports coat that's casual, yet dressy enough for cocktails and country dining. Light weight is the theme of the new casual sports coats, but in weights so light you've never thought them possible. Imagine a wool sports coat weighing just 18½ ounces. You've read right... 18½ ounces for a fine wool sports coat that has a stubborn aversion to wrinkles, a rugged reputation for wear. This is just a sampling of the kind of sports coats available for the warm months ahead.

Stripes tell the story for early spring—March and April. Whether you live in the city or suburbia, you'll look best in a medium-toned, striped sports coat. Here are some of the new color combinations: Dark gray stripes show up on a lighter gray background. Last season the colors would have been reversed, making a dark, gloomy impression. Fortunately this spring (and it's high time!) sports coats are swinging into medium to lighter tones for a much needed bright outlook in men's sports apparel. Black, brown, and green stripes also line up for spring '58. Brown, gray and red, too. There's also a "white" story and a "lemon" story in sports coats, but that will come in greater detail at a later date.

Look for olive undertones in the new wool sports coat you're contemplating buying, and you'll be dressed color-right. You'll find olive with blue, olive with green, and with gray this season in very open Scottish-looking heather wools which you can almost see through. Soft, light and airy though they may be, the fabric sheds wrinkles quickly because of wool's natural springiness.

The modified ivy jacket with a little more shoulder padding is a model that should appeal to the majority of American men. It has some indentation at the waist and three buttons, of course. The pockets come flapped. Buttoning the centre button alone is how mature men prefer to wear it.

There's a new jacket style on the horizon. It's "avant-garde" now, but you'll be seeing more of them next fall. It's a two-button wool sports coat that omits the button at the bottom. The front is more cutaway, and the side vents are deeper—about 7 inches. Fred Astaire, often named one of the ten best-dressed men in the world, prefers these deeper, 7-inch side vents, saying he looks better and feels more comfortable with vents in the British length. The jacket also has slanting, flapped pockets, with a coin pocket. It's the type of sports jacket styling that's right at home at the racetrack, at baseball games and for country-driving when you want to look "casually" attired, but in a distinctive manner.

# Neckties To Be Much Brighter

New neckwear for spring and summer will be brighter and more lively than they have been in several years. Light colored grounds accented with touches of strong hue make for a fresh new appearance at the all-important neck zone.

Silvery shades of white, gray, tan and blue carry subtle overtones in deeper expressions of the same colors to add a note of elegance to Easter outfits as well as to those worn into the summer months.

Woven patterns on luxurious silks, which are keyed to the new suiting shades, range from isolated touches of interest on the tie body to all-over effects—some in abstract designs and others in motifs that vary from travel scenes to hobbies and sports.

Fine imported cottons carrying both the traditional English prints and the bolder Continental designs are among the late spring and summer favorites.

# What's Afoot For Spring, Men?

Men's shoes will have a new look this spring, according to the Leaning Industries of America. It will be seen in the shape of toes, in new kinds of straps—but mostly in new soft, supple leathers that make all styles feel as easy on the foot as slippers.

There will be more textured leather in business shoes, as well as those for leisure wear, but all textures will be soft and lightly etched. Leather soles, too, will be lighter and more resilient. Toes will be long and lean. Some of them will be pointed at the end, some squared off, but most of them will be rounded.

The three-eyelet tie will be the most popular style. There will be some five eyelets but they will be cut almost as low as the three-eyelet. All ties will have the easy going, casual look of slippers.

New ways with perforations and seams will distinguish the new slippers. Some slippers will have graduated perforations around the topline, with the largest ones at the back, smaller ones to the front. Others will have perforations in horizontal rows around the toe of the shoe and in vertical rows up the tongue. Some moc toes will be outlined with perforations.

Seams will be fine and many of them will be inverted, giving a smooth line. Sometimes a seam will run down the centre of a plain toe. And slippers will often have a swirling seam along one side of the toe.

The buckle and strap shoe formerly worn only for casual wear,

will be seen in business shoes as well. Probably the most dressy strap will be one only a quarter of an inch wide that fastens in the centre with a tiny self-buckle.

Really cool for spring and summer is this smooth dark brown leather shoe with perforated vamp and trim leather sole.

Forerunner of things to come is this blunt toe shoe in smooth black leather. Large perforations lend eye-interest to the gleaming leather.

DETAILED FOR STYLE

# SARTORIAL SIDELIGHTS

# Correct Dress Is Important Now To Make Favorable Impression

By ANDREW MASON

Many problems concerning the proper coordination of clothes often arise. Businessmen should be particularly concerned with when to wear what. Because of the trend toward casual day-time dress that began after the last war, many men make the mistake of dressing too informally on the job. In part, this is due to changes in the American way of living. The five-day, 35 to 40 hour work week has given many men more time off. The shift to the suburbs has increased the number of commuters. Sports outfits that were originally intended for—and confined to—the suburbs, are suddenly seen commuting to town on the 8:15.

And they don't look right! Today's the one day of the year that "yours truly" feels like sounding off about the laxity many men show in their dress habits. He promises not to do it again until '59. So here goes!

# PET PEEVE NUMBER ONE

Rich-looking wool tweed sports jackets are strictly a suburban or after-work item. They're not in keeping with the tone of an office. Fine all-wool worsted suits are designed and sold for that purpose. They're as much a part of office life as a typewriter with a new ribbon. Let's care more about the way others see us by dressing up—up, down—Remember, it's important to dress for the job, especially now that top-notch jobs are becoming more scarce. Keep to fine wool-worsted suits that look influential around the clock, and confine those comfortable, easy-to-wear Shetland wool tweed sports jackets to the hours after five.

Nothing looks worse than seeing a man walking around with frayed trouser cuffs. Strangers size up a man's financial status by the clothes he wears. If a new wool-worsted business suit is out of the question (though such a purchase may prove a good investment), ask your neighborhood tailor to turn the trouser cuffs or make them into french (or false) cuffs. The charge is nominal, about two dollars, but your good wool trousers will now last as long as the suit jacket—and look right, too.

# THREE TO GO

That old proverb about people judging you by the company you keep now has a new twist. More and more, people are beginning to size you up by the way you wear your clothes. Especially socks. Even the finest wool-ribbed socks have a habit of falling down around the ankles just because you don't like wearing garters (or are too lazy to put them on). Invest a dollar in them. They're not at all uncomfortable, really, and help you stay looking well-groomed from toe to head.

FOUR, FIVE, SIX, MORE  
What looks worse? Frayed collars on shirts too far gone? Or unpolished shoes with run-down

# GOING CARIBBEAN

A prominent color theme on men's furnishings, this spring, is Caribbean: bright red, green, yellow, blue, white.

# Bulldozers Will Level 20th Century-Fox Sets

By BOB THOMAS

HOLLYWOOD (AP)—Let's take a nostalgic trip around the 20th Century-Fox back lot. Bulldozers will soon level all those wonderful old sets as the film company converts the valuable acreage into a mammoth "century city."

"A lot of the old buildings will be destroyed," explained George Dudley, veteran of the studio art department who accompanied the tour. "They can't be moved like ordinary buildings because they are only fronts."

The first structure on the lot was the stable where Tom Mix kept Tony and other nags. Now the studio armory, it will be felled to make room for new sound stages.

To the north of the studio is Tombstone, a western town originally built for a Randy Scott film. The picture, Frontier Marshal, was a flop, but the set was a hit, repeating for The Oxbow Incident, The Gunfighter and others.

## THEATRE REPLICA

# Canadian Family Still Awaiting To See Elvis

MEMPHIS, Tenn. (AP)—Elvis Presley's value as a tourist attraction for Memphis goes unchallenged, thanks in part to the Smith family of London, Ont.

The Smiths came all the way from London to see the rock 'n' roll star last July. Back home they went to sell out and move to Memphis. They returned seven weeks ago.

They're still here.

What about Elvis' departure for the army Monday?

"We plan to live here as long as Elvis does," Mrs. Ralph Smith said. "If he sells his home and moves away, then we will follow."

Mrs. Smith works in the x-ray department of a Memphis hospital. Smith hasn't found a job yet. They have two children, Kevin, 10, and Coleen, 7.

Each Sunday the family goes out to Elvis' home at Graceland, hoping to see the star.

So far, no luck.

## GOOD RECRUIT

MANCHESTER, Eng. (CP)—Fusilier George Flaherty has become the first West Indian to win the "best recruit" award in the 270-year-old history of the Lancashire Fusiliers. He came to Britain three years ago, was conscripted and decided to stay in the army as a regular.

## HEALTH COLUMN

# Weight Control Helps To Relieve Hypertension

By Herman N. Brundesen, M.D.

In a previous column not long ago, I advised you that rest and relaxation in themselves were enough to lower blood pressure for many victims of hypertension.

Since then, many readers have asked: "What about dieting?" Well, if you are considerably overweight and have high blood pressure—most of those suffering from hypertension are obese—losing weight will also help bring your pressure down considerably.

## BATTLE PLAN NEEDED

But neither resting, reducing or any other single remedy is enough to get rid of high blood pressure permanently. You must attack the problem with a combination of remedies. Such a battle plan can be formed only by your doctor.

If you are overweight, and moderately active, your physician will probably advise a diet of between 1,000 and 1,500 calories a day. This will permit you to lose about one or two pounds a week. In most cases, this is plenty.

## TAKE LIGHT MEALS

I suggest you eat four or five rather light meals instead of the customary three heavy ones.

And cut out snacks: Stopping in at the neighborhood drug store for a chocolate malted milk is a fine idea—if you aren't trying to reduce. Having a piece of pie for dessert is okay, too—if you

don't have to lose weight. One chocolate malted or one piece of pie contains about 450 calories. If you are on a 1,500-calorie diet, a malted and a piece of pie take almost two-thirds of your daily food quota.

## THWARTS DIET PLAN

You must also drink less in alcoholic beverages and soft drinks. The alcoholic and sugar content will thwart your diet plans.

In general, a glass of beer a day may not harm a person with moderately high blood pressure. But if you are reducing, you must consider the calorie problem. While tea and coffee won't interfere with your dieting, providing you don't use sugar, I advise against more than one or two cups a day for those of you with hypertension. They are stimulants, and it's dangerous to turn to them when you feel you need stimulation to keep going.

## QUESTION AND ANSWER

C.R.: I took some aureomycin for pneumonia for about two weeks. Then I developed diarrhea with cramps in my stomach which have persisted for the last five months.

Answer: It would seem you have developed some sensitivity to aureomycin. This is not too uncommon.

Usually, this condition will pass in time, but taking liver injections and vitamin B-12 is sometimes of help.

## YOUR HOROSCOPE

By ESTRELLITA

## FOR TOMORROW

Friday's aspects augur well for partnership deals and other business transactions. It will also be an excellent day in which to invest in new properties or to start making improvements in your home. Use sound judgment in all matters, of course.

## FOR THE BIRTHDAY

If tomorrow is your birthday, you had better be prepared for some unexpected job activity during the next three months, since new opportunities are promised—perhaps through a social contact. If you happen to be engaged in creative or scientific work, the same period should launch a particularly auspicious period—one which could bring fine recognition before the end of 1958. All will have to work hard to reap the gains possible, of course, but promised results are truly worthwhile.

Domestic and romantic matters will be under generally good influences for most of the year, with May, June and September outstandingly good. Social life should be more stimulating than usual in July, August, September and December, but don't overtax yourself in October. Don't risk assets during November and December, either. A good financial break in January should get you off to a good start in 1959.

A child born on this day will be practical, ingenious and endowed with a magnetic personality.

The bidding:  
1 ♠ Pass 3 ♠ East Pass 6 ♠

Opening lead—queen of hearts.

The skilled magician who can make things disappear from right under your eyes has his counterpart in bridge in the skilled declarer who is able to make an apparently sure loser disappear from sight.

The most common method by which declarer is able to achieve this feat is called the elimination play. Here is an illustration of how the sleight of hand maneuver operates.

South wins the heart lead with the king, plays the ace and another trump, and at this point discovers he must lose a trump trick. Since he also has a heart to lose, the slam appears to be surely beaten.

Conceding defeat without a struggle can hardly be the right thing to do, so declarer puts his mind to work to see whether or not the defenders' cards can be

distributed in any way that will still permit the contract to be made. The answer lies in arranging the play so that when East is handed his trump trick, he will have to return a card that allows South to salvage the heart loser.

Accordingly, after two rounds of trumps, the A-K of diamonds are cashed and a diamond is ruffed. This is the first step of the elimination from both hands of side suits. The elimination plan is based on the hope East is short in hearts, where the side loser exists.

Next, three rounds of clubs are played. There is no certainty that East will follow to each club, but if he interrupts by ruffing one of them, the hand was probably doomed from the start.

When, luckily, it turns out that East started with five clubs, the slam becomes a sure thing. East has already shown up with three spades and three diamonds and hence cannot have been dealt more than two hearts.

The ace of hearts is cashed and East is now given his trump trick. He has two cards left, both clubs. When he leads one, South discards his heart loser and ruffs the club in dummy.

## LANDLORD CONVICTED

LOCKPORT, N. Y. (AP)—The landlord of a Niagara Falls, N.Y., tenement that burned last November with the loss of 18 lives, including 15 children, was convicted of first degree manslaughter Monday night. A Niagara County court jury returned the verdict against William Dietz, 37, after deliberating six hours. Dietz faces a prison term of up to 20 years. No date was set for sentencing.

## Life At Home Conditions Child To Accept Or Resist Education

VANCOUVER (CP) — What goes on in the home can lead the child to accept or resist education, says Dr. Joseph Katz of the University of British Columbia faculty of education.

"The atmosphere of a home conditions a child's attitude towards learning," he said in an interview. "Resistance to learning in schools reflects a similar resistance students find in society or in the home."

Dr. Katz suggested that parents who think schools are not educating children properly should ask themselves a few questions.

"Is respect in the home indicated by a big car or a big library? Whichever it is that will be the model."

"Is the television set always turned into sports events such as boxing? If so, the student never gets a chance to hear Bach and decide for himself whether he likes it."

"Does father always turn to the

business page of the newspaper instead of the editorial page? Then perhaps the paper as a whole isn't discussed or read.

"Are we giving them a chance to listen to both Presley and a sonata and letting them learn to choose, or are we going to load the dice against them?"

"If a child comes from a home

where there is respect for good books and music and where discussions have some respect for real values of life, then the home supports the school.

"Where there is a contrast between what the school says and what the home does then the student has to make a choice on the basis of very little experience."

## Adult Funeral Costs In Canada Averaged \$405 During 1956

OTTAWA (CP) — The costs of funeral services for Canadian adults in 1956 averaged \$405, including a casket but no extras.

By provinces, Quebec edged out Ontario by \$1 to record the highest average funeral service cost.

\$456. Services were cheapest in Prince Edward Island where costs averaged \$264.

The facts and figures on funeral service costs were compiled by the bureau of statistics using replies from 840 firms from a survey list of 1,094.

The 840 firms reported 1956 receipts totalling \$36,829,222. Employees number 3,827 and their wages totalled \$7,023,430.

The survey, limited to the funeral directing business, found 277 funeral directors also were engaged in other commercial work such as selling furniture or providing ambulance services.

## UNREQUITED LOVE

### Fireworks Kill 19 Colombians —By Swallowing

BOGOTA, Colombia (AP) — Within two months 16 despairing young Bogota women have swallowed a form of fireworks that ended their lives in agony. Alarmed at the wave of "two-cent suicides," the government now has prohibited sale of the poisonous cracklers called totes.

Shaped like a large pill, totes pop and crackle when scraped on a rough surface. Children make noise with them at Christmas. They sold for a cent apiece. Two contain enough phosphorus to kill.

Shortly after Christmas a 21-year-old salesgirl in a large department store, disappointed in love, swallowed a handful of totes and died. Nobody had tried that before, and a chain of totes suicides began among girls and women ranging in age from 14 to 28. Mostly they were servants or working girls, unhappy in love.

Three men also killed themselves with totes, making the total number of victims 19. Totes were cheap, much cheaper than sleeping pills, and easy to buy. They brought a slow, horribly painful death.

When the 18th victim died, the government prohibited further sale of totes while it prepared to regulate the sale of fireworks generally. The 19th victim, a 17-year-old servant girl, already had swallowed some and died 48 hours after the ban was announced.

## 58 Believed Lost When Ship Sinks

JAKARTA, Indonesia (AP) — A privately-owned ship broke up and sank Sunday off Bawean Island, East Java, with a possible loss of 58 lives, reports reaching here said today.

The vessel, which was not named, had a normal passenger capacity of 17 but was carrying 68 plus a crew of seven, the reports said. Only 17 persons—13 passengers and four crew members—were rescued, the report added.

Antara news agency said the ship left Surabaya Saturday and was carrying several Indonesian government employees.

## Minto's Death By Submersion Set For 1959

MINTO, B.C. (CP) — This Bridge River Valley mining town 100 miles north of Vancouver was born in 1934 and will die in 1959.

The end is inevitable. Next year the Bridge River will be dammed 35 miles east of Minto. The water will back up and the streets will lie 25 feet under the surface.

But Vancouver will benefit by the flooding. The artificial lake will provide more power in B.C. Electric Company's multi-million-dollar Bridge River power development scheme to serve the lower mainland.

Minto was born as a mining town. It boomed in the first few years. A work force of about 200 miners gouged \$1,000,000 in gold out of a nearby mountain. The population rose to nearly 800.

But the rich ore vein faltered. By 1942 it finally petered out, and today the mine buildings sag and snow drifts in and out of broken windows.

Only about 50 people, construction workers, hunting guides and prospectors, live in Minto now. More than half of them have already made plans to go. Others say they will stay till the water is lapping around their feet if B.C. Electric doesn't meet their compensation demands.

## GIANT DOME OVER WORKERS

### Cold No Deterrent When Working Outside Like This

OTTAWA (CP) — House builders in suburban Woodroffe work in shirtsleeves amid snow many inches deep.

The National Research Council's building research division says there may be an answer here to winter construction problems. The house is being built under a giant transparent dome, shaped like half a barrel lying on its side. Temperature inside is kept around 68 degrees by two propane gas heaters.

STUDY COSTS It is an experiment by the NRC in conjunction with an Ottawa construction firm. They are investigating the dome's possibilities for improving winter construction methods. Its success could both ease winter unemployment and relieve housing shortage.

When the quonset-type polythene shelter is taken down April 6, a neat brick bungalow, finished and painted, will be visible. Then NRC scientists will be able to assess the method's economic feasibility.

The dome costs about \$1,000, but can be used over and over again. The construction company believes it will cut in half the time required to build a house under winter conditions. The NRC hopes the saving on time will offset the cost of the dome.

Bob Riggs, general manager of the construction company, says that if it is found there is no extra cost involved in using the dome, it likely will be adopted by the industry at large.

"If we can do this and keep costs in line, we can beat the winter construction problem," he says.

## Enemies Of Aphrodite Triumph; "Bulbous Betty" To Be Removed

LONDON (Reuters) — The enemies of Aphrodite triumphed Tuesday night in Richmond, a well-to-do London suburb. The women of Richmond balked at the sight of her ample, unclad figure smack in the centre of their Thames-side village.

They nicknamed Richmond's version of the Greek goddess of love, beauty and fertility—a one-ton, seven-foot-tall statue riding a dolphin in the centre of an ornamental pond—"Bulbous Betty."

The statue, erected a few years ago, is not only nude but lewd, they said. Richmond council met Tuesday to consider the case. Councillor Van Straubenzee dubbed Bulbous Betty a "vulgar monstrosity."

Alastair A. C. Macdonald pleaded for Aphrodite as "an incentive to young men to get married." But councillor Keith Morrell retorted: "I pass her every day and I'm still a bachelor."

The council finally voted to shift the goddess as soon as a more suitable, out-of-the-way site can be found.

## Prince Philip First "Stranger" To Attend UK Magazine Lunch

LONDON (Reuters) — Prince Philip today visited the offices of Punch and later attended the magazine's weekly "cartoon-choosing" lunch. He was the first "stranger" to sit in at the gathering since Mark Twain's visit to London in 1907. The lunch was held around the traditional table on which nearly all who have lunched there have carved their initials.

## Runaway Heiress, Husband Arrive In U.S. Broke

MIAMI, Fla. (AP) — A British shipping heiress and the shipping clerk she married in a runaway romance arrived this week from Cuba—flat broke.

The couple defied British court orders and parental opposition to become Mr. and Mrs. Dominie Elwes before a Cuban notary public in Havana last Jan. 27. But after fleeing England and Scotland and winding up in troubled Cuba, Elwes had to face the most bitter fact of all: He can't find a job.

At 26, Elwes is finding it tough to support his 19-year-old bride, the former Tessa Kennedy. The couple left Britain after Tessa's father obtained court writs to prevent their marrying without his consent.

The young couple went into virtual seclusion here "to think things through." Elwes said he faces a three-year prison term if he returns to England, for having failed to return Tessa upon court orders.

## HUGE PLANT SIZEWELL, England (CP) — An atomic power station costing more than £40,000,000 will be built in this Suffolk coastal village.

## Rancher-Cougar Hunter Gets 'Em Dead Or Alive

CALGARY (CP) — Ed Burton of Claresholm, 80 miles south of here, is one of the most successful cougar hunters ever employed by the lands and forests department in the foothills region.

The department this year has six professional hunters under contract to control the cougar population. Department officials estimate each cougar slays 52 head of deer, moose, elk or cattle a year.

Mr. Burton has killed 43 of the big cats in the last 12 years, and has caught a dozen live ones for zoos. Largest of his trophies measured nine feet from fangs to tail, and weighed more than 200 pounds.

WIDE RANGE From his cattle ranch, he checks an area of 60 by 150 miles extending from west of Calgary to British Columbia and south to the U.S. border.

He sets out with a four-wheel-drive jeep loaded with dogs, guns and camping supplies and occasionally is accompanied by Mrs. Burton. A watchful eye is kept out for cougar signs and when they are spotted the dogs are let loose.

The Burton pack includes airedales, huskies and bluetick hounds, which bay loudly when the cougar trail is warm. The dogs' task is to tree the quarry. The hunter of course must stay in sound of the dogs.

Mr. Burton says a cougar can be treed easily — the first time. The animal won't panic easily when he's hunted again. One cougar led him nearly 1,000 miles for nearly a whole winter before

## "Air Cushion" Saves Shipping 30% In Fuel

COPENHAGEN (Reuters) — An invention it is claimed could reduce fuel consumption of world shipping by 30 per cent has been patented by a 33-year-old Danish naval architect, Knud Gram.

It consists of an "air cushion" artificially created along the bottom of a ship, serving to reduce friction between the hull and the water.

The idea of using air as a lubricant on ships—in the form of an air layer between the water and the wetted surface of the hull—is an old one. But power required to operate compressors was found to exceed the propulsive power gained from reducing friction.

Gram's contribution consists of a stabilized air cushion, in the form of a closed air circuit, pumped out at the fore end of the vessel and sucked in at the aft end, whereby the air circulates in the same manner as the "caterpillar feet" of a tank.

## Ontario Won't Remove Lazy School Pupils

TORONTO (CP) — Ontario's education department does not intend to remove lazy students from classrooms as is done in Alberta.

S. D. Rendall, superintendent of secondary education, told the legislature's education committee today the department feels it must make unwilling students interested in their school work and mould them into good citizens. CCF Leader Donald MacDonald said dismissal is not the solution to the problem of lazy or delinquent students.

"You are only evading the problem because if they are not trained in our schools they will end up in our training schools, Burwash industrial farms or later on in penitentiary," he said.

## Fulton Plans To Stem Sale Obscene Books

MONTREAL (CP) — Justice Minister Fulton said his department is seeking a definition of "obscenity" to stem sale of immoral literature.

He made the statement at a press conference while here to address a Progressive Conservative election rally.

"We are deeply concerned about the flood of salacious literature inundating Canada" and "one of our major problems is the lack of definition in the criminal code of obscenity," Mr. Fulton said.

To determine obscenity, he said the justice department now had to use a judicial statement made in England more than 80 years ago and it was outdated.

"We must give our courts a fundamental definition of obscenity that can guide them in whatever rulings may be necessary in future cases."

## Swallows Return To Capistrano

SAN JUAN CAPISTRANO, Calif. (AP) — The swallows came back to Capistrano early this year. Also on time. Also late.

The story goes that for 25 years, or 67, or 182—depending on your choice of the version—the swallows have been returning to San Juan Capistrano Mission on St. Joseph's Day, March 19.

Tuesday was March 18, and the old mission was awash with swallows. About 100 were swooping and diving overhead. How come?

A worker cementing ancient tiles together paused and pointed his trowel at the cloud of birds. "Oh them," he said. "Those are scouts. They always send a few scouts ahead."

Sweden's total industrial production in 1957 was 3½ per cent higher than in 1956.
